Mainstream Engineering Awarded Contract from Marine Corps System Command for Advanced Tactical Sled Loader and Ruggedized Tactical Cargo Sleds.

ROCKLEDGE, FL — January 14th, 2026 —

Mainstream has been contracted to develop an Advanced Tactical Sled Loader (ATSL) that facilitates aircraft loading. Our approach uniquely combines advanced technology to reduce risk and draws on the success of Mainstreams previously fielded equipment.

About Mainstream Engineering Corporation

www.mainstream-engr.com

Mainstream Engineering Corporation is a 39-year-old Brevard County, Florida manufacturer with a history of leading-edge research and development that has resulted in advanced cost-competitive products, which are made in the USA. Mainstream's mission is to transition advanced R&D into American-made commercial products using lean manufacturing techniques. Areas of research include autonomous operation, AI, robotics, thermal control, energy conversion, power electronics, biomass conversion, chemical technology and materials science.
