## **Mainstream Engineering Corporation announced as one of the winners of the 13th Annual Grow Florida Companies to Watch Awards.**

ROCKLEDGE, FL — January 29<sup>th</sup>, 2024 — Mainstream Engineering Corporation is a Research and Development (R&D) structured organization that manufactures unique products in the thermal control, energy conversion, chemical, materials, and mechanical technology areas for government and commercial users. They focus on novel, unique, patent-protected products that satisfy a previously unsatisfied demand in diverse industries.

This 38-year-old Brevard County, Florida manufacturer has a history of producing leading-edge research and development that has resulted in advanced cost-competitive products, **which are made in the USA**. Mainstream's mission has always been to transition advanced R&D into high-quality, environmentally-safe, green, commercial products using lean manufacturing techniques.

Mainstream Engineering Corporation is honored to be among the distinguished winners of the 13th Annual @GrowFL Florida Companies to Watch Awards! They join an elite group of Florida businesses who have been recognized with this prestigious award. The formal awards ceremony will be held on February 15<sup>th</sup> in Orlando. Learn more about the award or register to attend by visiting: <https://growfl.com/about-growfl-flctw/>
